README for VideoPoster-II Firmware Update

Firmware Version: 2.2.0.32150
Date: 16.01.2012

This firmware update file is intended to update the VideoPoster-II firmware.

Name of firmware update file:
setup_Firmware_VideoPoster-II_PA-25-XXX_v2.2.0_V1.bin

It can be installed on board configuration:
- PA-25-xxx

It can be installed on firmware versions:
- 1.0.0 and above

ATTENTION:

The power supply for VideoPoster-II must NOT be interrupted during the firmware installation because this can damage the product!

The VideoPoster-II automatically restarts during the firmware installation. This is normal behaviour.

Preparations before the firmware update:
Download the firmware zip file "VideoPoster-II_Firmware_PA-25-XXX_v2.2.0_V1.zip" from our homepage (see http://www.datadisplay-group.com/support/downloads/mediaplayer-firmware/) and save it on your computer.

Extract the contained firmware file and install this on your VideoPoster-II as described below.

The firmware can be installed by using one of the following methods:
- Upload per web interface:
- Open the web interface of VideoPoster-II
- Select the menu "Advanced"
- Browse the firmware update file in the section "Firmware Update"
  and press the button "Upload to VideoPoster-II"
- Wait about 10 minutes and consider the messages in your browser
  until the installation has finished

- Upload per USB flash drive:
- Not supported yet

- Upload per ACC 3:
- Not supported yet

- Download from FTP server:
- Not supported yet
