

RoHS Statement

RoHS-II Directive 2011/65/EU

RoHS-III 2015/863

22.10.2024

Dear customer,

RoHS-II directive did become effective by January 2nd, 2013, and RoHS-III directive by July 22nd, 2019. The main differences between RoHS, RoHS-II and RoHS-III directives are:

- 1) The scope of the directive was enlarged.
- 2) CE-compliance-declarations must include the RoHS-II directive.
 - 1) The substance-bans, declared by RoHS-II and RoHS-III, have been regarded by all FORTEC Integrated products since the directive has taken effect. Therefore, the enlarged scope of the RoHS-II and RoHS-III directive is irrelevant to FORTEC Integrated and no action must be taken.
 - 2) FORTEC Integrated has adapted the CE-compliance-declarations of all end products when the RoHS-II and RoHS-III directive came into effect and provides them for customer use.

FORTEC Integrated GmbH hereby confirms that, according to current knowledge, all products sold by us comply with the 2011/65/EU and 2015/863 directive.

These products meet the current requirements of the RoHS directive for all 10 designated materials:
